NOME: _____

PROFESSOR: _____ DATA: ___ / ___ / ___

ADIÇÃO

1 - Observe.

A visual addition problem showing three groups of objects. The first group contains 3 trumpets. The second group contains 2 trumpets. The third group contains 5 trumpets. This illustrates that 3 + 2 = 5.

$$\boxed{3} + \boxed{2} = \boxed{5}$$

2 - Resolva.

A visual addition problem showing two groups of drums. The first group has 2 drums. The second group has 3 drums. The result is 5 drums. This illustrates that 2 + 3 = 5.

$$\boxed{} + \boxed{} = \boxed{}$$

A visual addition problem showing two groups of xylophones. The first group has 2 xylophones. The second group has 3 xylophones. The result is 5 xylophones. This illustrates that 2 + 3 = 5.

$$\boxed{} + \boxed{} = \boxed{}$$

A visual addition problem showing two groups of recorders. The first group has 4 recorders. The second group has 4 recorders. The result is 8 recorders. This illustrates that 4 + 4 = 8.

$$\boxed{} + \boxed{} = \boxed{}$$

A visual addition problem showing two groups of guitars. The first group has 3 guitars. The second group has 5 guitars. The result is 8 guitars. This illustrates that 3 + 5 = 8.

$$\boxed{} + \boxed{} = \boxed{}$$

A visual addition problem showing two groups of handbells. The first group has 1 handbell. The second group has 4 handbells. The result is 5 handbells. This illustrates that 1 + 4 = 5.

$$\boxed{} + \boxed{} = \boxed{}$$

A visual addition problem showing two groups of pianos. The first group has 2 pianos. The second group has 2 pianos. The result is 4 pianos. This illustrates that 2 + 2 = 4.

$$\boxed{} + \boxed{} = \boxed{}$$
